

Updated Online NDC Units Calculator Tool Available

Providers treating Blue Cross and Blue Shield of Montana (BCBSMT) members now have access to a user-friendly online National Drug Code (NDC) units calculator tool for assistance with converting applicable classified or specified Healthcare Common Procedure Coding System (HCPCS) or Current Procedural Terminology (CPT®) units to NDC units.

RJ Health, an independent third-party specialty drug data company, has provided a newly updated units calculator tool, which is now known as RC Claim Assist™. You may access RC Claim Assist at no cost through the [Availity™ Web Portal](#) or through the BCBSMT [secure provider portal](#). If you are a new Availity or secure provider portal user, you will need to select the *Register now* link. Once registered, you should be able to login. Providers may search for billable NDC Units by HCPCS/CPT code, by NDC code and/or by Drug Name.

A user guide for RC Claim Assist, as well as updated NDC Billing FAQs and NDC Billing Guidelines will be available soon. These resources will be posted in the [Claims and Eligibility/Claim Submission](#) section of our Provider website.
